TO: Assistant District Attorney Lynn Beland, First Assistant

FROM: Detective Lieutenant Brian Tully #3520

SUBJECT: Analysis of Call Detail Records for (c) [REDACTED]

CASE: 2022-112-33

1. On April 15, 2022, I, DLt. Brian Tully #3520, was asked by ADA Adam Lally to analyze and provide a visual depiction of call detail records obtaining during an investigation into the death of John O'Keefe in the town of Canton on January 29, 2022. Tpr. Michael Proctor provided a set of Verizon records. The set of records were labeled Verizon Case #22151275, which included subscriber information, records keys, CSLI, and ranging data for phone number (c) [REDACTED] for January 29, 2022. The date/time of some of the records provided are in Universal Time Code (UTC), but any mention of date/time below has been converted to the local time where the cell phone antenna was located.

2. The subscriber information for phone number (c) stated the name on the account is Karen Read, 481 Gilbert Street, Mansfield, MA. The account was activated on 6/26/2003 and is listed as "postpaid" with no "Disconnect" date listed.

3. I produced a visual representation of the antenna locations and ranging data using Google Earth. The antenna locations provided a common usage pattern. A majority of the antenna locations concentrated in the Canton, MA area. A more detailed analysis is attached. The legend for the attached maps is as follows:

-  Verizon Antenna
-  34 Fairview Road, Canton, MA
-  Waterfall Bar and Grille, 634 Washington Street, Canton, MA
-  1 Meadows Avenue, Canton, MA

Respectfully Submitted,

Brian Tully #3520
